

Dear Colleagues,

The Dean of Civil Engineering Faculty, Technical University of Cluj – Napoca, expresses his honour in inviting you to take part in celebrating 65 years of academic experience in the Civil Engineering field. The celebration will be held at Grand Hotel Napoca and at the premises of the Faculty during November 15<sup>th</sup> to 17<sup>th</sup>, 2018.

**C65 Anniversary Session** goal is to rejoin in celebration those who during the 65 years of existence had contributed to the development of the Faculty of Civil Engineering.

**C65 International Conference "Tradition and Innovation - 65 Years of Constructions in Transilvania"** aims at creating the opportunity of an exchange of experience, ideas and knowledge in the vast field of Construction industry. The summit of professionals, academics and the others involved in the Construction activity may generate a comprehensive view on the overall performances, developments and tendencies in the fields of research, design and economics in the field.

The International Conference will include keynote sessions, technical papers and poster presentations on the following topics:

- Structural mechanics
- Soil mechanics and foundations
- Reinforced concrete structures
- Steel structures
- Buildings and construction materials
- Roads, bridges and railways
- Construction technologies and management
- Building services
- Architecture and engineering graphics
- Cadastral survey methodologies and techniques
- Challenges in teaching Civil Engineering

The deadline for the extended abstract submission is 1<sup>st</sup> of June, 2018. Registration, extended abstract template and important dates for the conference may be found on the following web site: <http://c65.utcluj.ro>. Proposals for organising a special session on your specialist topic, including six or more papers, are welcome and should be sent directly to the conference secretary.

Accepted extended abstracts will be published by UTPRESS in a Conference Proceedings volume which will be distributed to all registered conference participants. Once the paper is accepted, at least one of the authors must register for the conference and present the paper at the conference.

Based on the peer-review process, the authors of the accepted extended abstracts are eligible for submission of a full length paper for further evaluation and publication in a special issue of the indexed journal Acta Technical Napocensis: Civil Engineering & Architecture (<http://constructii.utcluj.ro/ActaCivilEng/>). The details of the submission procedures will be given on the conference webpage in June 2018.

The submission process and review process of the full length papers will start early in September 2018 and participants should start preparing their papers for publication as soon as their extended abstracts are accepted. We are expecting that the entire peer-review process to be accomplished early in 2019 and all the accepted full length papers to be enclosed in the Volume 62-1 of the journal.

The organizing committee looks forward to meeting you at this event and to having the opportunity and pleasure of warmly welcoming you.

Dean of the Civil Engineering Faculty,  
Prof. Nicolae CHIRA
